Which is 'Split Channels' & 'Default Instrument Input' I selected the 2nd 'default instrument' one but I cannot get the Presonus to respond to my keyboard inside the Instruments box.. Double-click to the Qwerty Keyboard Qwet Keyboard appears, and you can use your computer keyboard as MIDI controller, now.. Is there a way to shift octaves or what? This sounds interesting (Live can do this as well but it is just a toggle in the GUI last I recalled). [How To Download A Vpn For Mac](#)
